

The Port OF HUENEME

PORTS OF CALL

A vessel is on charter by a niche Asian shipping line for November 2021; it will carry 500 40' containers full of dry goods from China to the Port of Hueneme. Existing carriers are also taking advantage of transshipment hubs.

NOTE: A TEU is a term the maritime industry uses for quantifying container volumes. There are 20-foot containers that go on international ocean carriers, but usually international shipping containers are 40 feet. A good rule of thumb - Divide the TEU number in half and you get the number of containers. A 2,500 TEU ships carries approximately 1,250 containers. This is a typical size vessel for the Port of Hueneme.
